# SINGAPORE

## Pacnet Email Outsourced Solution

### IT SOLUTIONS AND HOSTING

**It's hard to imagine an hour, let alone a day without email access at the office. Which is why having a trustworthy and hassle-free email system is important.**

**However, maintaining a mail server can be expensive in terms of investment in equipment and ongoing maintenance.**

Pacnet understands the need for connectivity to office mail to send or receive important e-mail, without the constraints of staying in office to do so. Pacnet Email Outsourced Solution is a cost-effective solution to access the office mail without the need for an expensive mail server to be purchased and yet allow you to retain control over the full functions of a personalised E-mail account.

The personalised account facilitates office mail to be accessed outside the boundaries of the office at any location and at any time. Last but not least, it comes with the flexibility to create as many e-mail accounts as you need and can be customised to your preferences at real time.

Pacnet provides the best networking and hosting solutions to new Internet start-ups companies and corporate businesses. Email Outsourced Solution is one of the quality services that we offer to provide the benefits of a self-administered solution for your corporate staff or customers on a shared E-mail server.

## Cost Effective Email Solution Business Grade Support
