Pacnet Home Broadband Service

INTERNET

The Internet has become part of our lives at home, at work or at play. With information and entertainment just a click away, we find ourselves demanding more speed, security, efficiency and mobility from our broadband access.

Availability of high speed broadband home access enabled small business owners and business professionals to be productive anytime, anywhere, whether they are at home or on the road.

At Pacnet, we commit to providing you with flexible and expansive high speed broadband home access package you can customize according to your needs.

We provide you options to connect via ADSL and Cable with various access plans ranging from time-based with ability to carry forward unused hours, volume based or unlimited access. These packages all come with a 20MB default email space and 10MB personal homepage space for you use.

Pacnet ADSL

Avail of the best broadband deal in Singapore with our ADSL broadband plan. Connect with your family and friends or colleagues all over the world and immerse yourself in rich online media on demand using wireline or wireless connection.
